W. N. WILLIAMSON

Mr. Williamson has served on the Greene County School Board for over thirty years and was its chairman for approximately twenty years.

He is an avid basketball fan and rarely misses a Chuckey-Doak game. He likes to see his team win, but is always a supporter of good sportsmanship.

Mr. Williamson is an active member of Chuckey United Methodist Church and enjoys singing and listening to good gospel music.

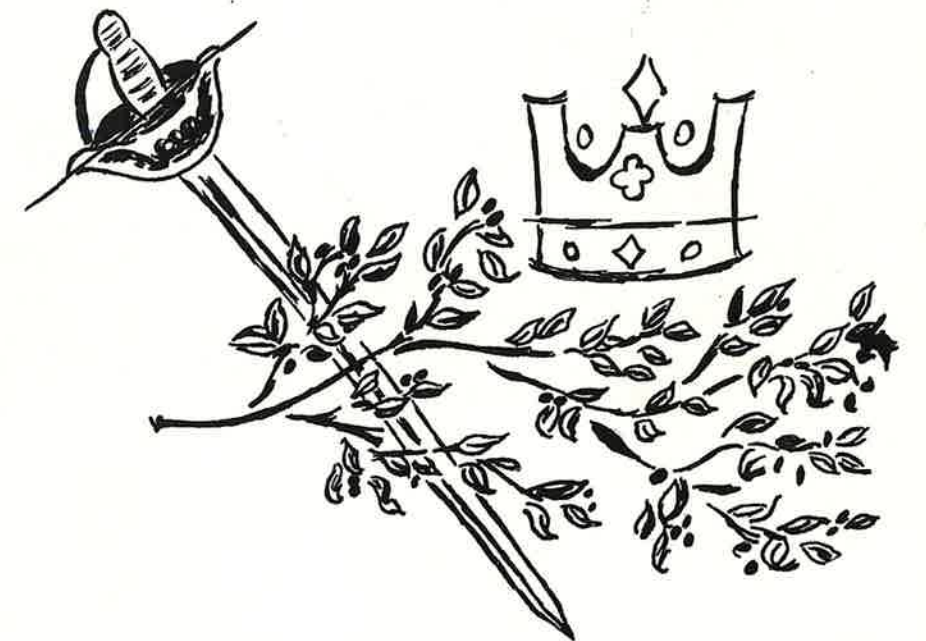

He loves his schools, his community, and his church, and most of all his family.

We salute Mr. Williamson and thank him for his efforts for education in Greene County.

"The Lord of Love came down from above, to live with the men who work . . ."

Henry Van Dyke

"WHAT IS LIFE INSURANCE?"

Life insurance provides a practical, convenient and certain method of realizing your objectives. It enables you to provide an estate for your beneficiary even though you should not live to accumulate it in full. It is a safe and sure means to financial independence in old age. In fact, the benefits life insurance can provide, in an endless variety of situations, are practically innumerable.

provides environment for learning

In grammar school, high school or college, you can count on electricity to provide the best environment for learning.

Good lighting speeds lessons and prevents eye fatigue; electric air conditioning and heating keep the temperature in the comfort range; appetizing, balanced meals are cooked and warmed electrically; and modern teaching aids are powered by electricity.

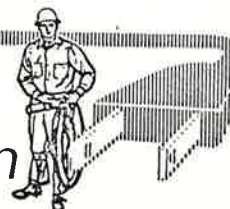

Educators have proved that students learn more in the proper environment. Is electricity doing all it can in your child's school?

tusculum college

FOUNDED IN 1794
A PIONEERING INSTITUTION IN 1969

Consider the world in 1980 . . . Then consider
the college you will attend.

Preparation for tomorrow's world is one of the most
important aspects of your college experience.
That's why as a liberal arts college we consider
the learning . . . teaching experience the fore-
most important factor in the educational process.

This experience at Tusculum College involves
small groups of students and teachers involved in
discussion, dialogue and reading about contemporary
issues in today's society. We believe that students
should and must become active participants in an
educational and intellectual venture rather than
become passive recipients of knowledge and facts.

In our first year program we attempt to bring stu-
dents and teachers together to learn together and
to encourage the student at the outset of his college
career to read, discuss, and reason . . . not to
complete an assignment but to learn to love to
learn, to read and to know.

If you wish to receive further information about an
educational program planned for tomorrow, contact
the Office of Admissions, Tusculum College,
Greeneville, Tennessee, 37743.
